

PRESS RELEASE - FOR IMMEDIATE RELEASE

New Diversity & Inclusion Guide Released by Ireland's FinTech & Financial Services Recruitment Consultancy

Dublin, 4 March 2019 – Top Tier Recruitment is pleased to announce the release of a new Diversity & Inclusion Guide to help employers in Ireland's FinTech & Financial Services industry to develop more inclusive workplaces.

Business leaders from companies including Bank of Ireland, AQMetrics, Pantheon Ventures, and InvoiceFair have contributed to the new industry guide.

The Guide can be downloaded at www.toptierrecruitment.com/diversity

“The Nyberg Report into the Financial Crisis in Ireland highlighted groupthink as a contributing factor. To me, this is a very real and tangible example of the danger of not investing in creating a diverse and inclusive culture,” said Paul Smyth, Managing Director of Irish recruitment consultancy, Top Tier Recruitment.

“With Brexit looming, we have a real opportunity to attract talent that may be displaced. We need to continue our efforts to encourage greater diversity and inclusion in FinTech & Financial Services and see creating a positive diversity & inclusion culture as a key retention and attraction tool as an industry and as individual companies,” said Paul Smyth.
